

Canadian Wood Council / Wood *WORKS!* BC Wood Design Awards 2009

Category:

Commercial Wood Design

Recipient:

**a k a Architecture + Design Inc.
Squamish**

Project:

**Tobiano Golf Clubhouse & Maintenance Building
Kamloops, BC**

Canadian Wood Council / Wood *WORKS!* BC Wood Design Awards 2009

Sited within the vast landscape, the design focuses on the use of natural materials to complement the natural surroundings.

The design employs wood, stone and glass, while setting the language for the nearby Maintenance building.

Fir is used structurally on the exterior, as posts, beams and roof purlins. It is also used as a cladding near the entrance, to negotiate the human scale.

The post and beam structure continues into the interior of the building. Wood used in the interior as a finish material to provide continuity with the structure and to bring warmth of wood to a human space.

Canadian Wood Council / Wood *WORKS!* BC Wood Design Awards 2009

Wood Materials used in the project are:

- Fir Horizontal Slats
- Fir Post & Beam
- Fir Roof Purlins & Rafters
- Fir Front Door
- Fir Bar
