

Technical Advisor- Wood *WORKS!* BC Program

The Canadian Wood Council (CWC) is the national association of the structural wood products industry. CWC has a new position for a dynamic, action oriented, results driven, Technical Advisor for its Wood *WORKS!* BC program, to advance and expand the demand for wood products, engineered and value-added wood components and wood systems in institutional, commercial and taller residential buildings in BC.

The successful candidate will have strong technical, organizational and communication skills with a particular emphasis on interpersonal skills (dealing directly with design and construction professionals). Sales experience, particularly in wood products, is also desirable. The Technical Advisor will provide technical information and referral services to assist architects, engineers and builders in designing with wood.

A University degree in Architecture, Construction or Civil Engineering (or an equivalent combination of education and experience) is required. A minimum of 7 years of construction sales or project management experience is also required.

Knowledge of construction and the wood products industry are desirable assets. Applicants must be willing to operate from a home office in British Columbia while reporting to the Wood *WORKS!* BC Provincial Director located in North Vancouver. Some travel is required. Salary will be commensurate with experience. This position starts out as a one-year full-time term position with the potential for full-time employment after the first year.

Cover letters and resumes will be received until Friday, September 6, 2019 and can be e-mailed to LEmbury-Williams@wood-works.ca.

We appreciate all inquiries. However, only those applications selected will receive a response.
