

## 2018 Wood Solutions Conference Exhibitors

### 475 High Performance Building Supply

[foursevenfive.ca](http://foursevenfive.ca)

**About:** 475 helps make more durable, resilient, ecological, and energy-efficient buildings that optimize occupant comfort and health. We enable the building improvements required to dramatically reduce our energy demand and address our climate crisis. We are an ecommerce-based catalyst in the transformation of Canadian construction to high-performance, low-energy and Passive House buildings. The name “475” is a reference to the heat demand requirement of the Passive House Standard, 4.75 kilo BTUs per square foot per year (converted from 15kWh/m<sup>2</sup>\*yr in metric). Passive House is the gold standard for high performance construction today.

**Find them at Booth #: 14**

### AcoustiTECH

[www.acousti-tech.com](http://www.acousti-tech.com)

**About:** AcoustiTECH offers acoustic solutions for different types of buildings (concrete, wood, steel, etc.). Our experts analyze your plans and recommend solutions adapted to your projects.

**Twitter:** @AcoustiTECH

**Find them at Booth #: 5**

### Architectural Woodwork Manufacturers Assn of Canada: AWMAC BC Chapter

[www.bc.awmac.com](http://www.bc.awmac.com)

**About:** AWMAC BC continuously strives to strengthen industry standards and improve the quality of workmanship. In partnership with members throughout British Columbia and Canada we have achieved international recognition as industry leaders.

**Find them at Booth #: 37**

### BC Housing

[www.bchousing.org](http://www.bchousing.org)

**About:** BC Housing works in partnership with the private and non-profit sectors, provincial health authorities and ministries, other levels of government and community groups to develop a range of housing options. Under the *Homeowner Protection Act*, BC Housing is mandated to help improve consumer protection for buyers of new homes and the quality of residential construction in BC. BC Housing fulfils this mandate by; monitoring and enforcing the mandatory third-party home warranty insurance on all new homes constructed in BC, licensing residential builders and maintaining a register of new homes, and performing research and education functions to advance and promote better building and retrofit practices to benefit BC's residential construction industry and consumers.

**Twitter:** @BC\_Housing

**Find them at Booth #: 26**

## **BC Wood Specialties Group**

*www.bcwood.com*

**About:** BC Wood is a not-for-profit trade association that supports BC businesses that manufacture wood products. We are a voice for the industry, bringing innovative ideas to the table and insight into how we can strengthen BC's wood culture. We are leading the industry by creating a culture where wood is the first choice for all types of construction and design products.

**Twitter:** @BC\_Wood

**Find them at Booth #: 36**

## **Boise Cascade**

*www.bc.com*

**About:** Boise Cascade has a proven track record of providing quality wood products and a nationwide building materials distribution network for our customers, helping them to enhance their own businesses. Boise Cascade manufactures engineered wood products, plywood, lumber, and particleboard and distributes a broad line of building materials, including wood products manufactured by the company's wood products division.

**Twitter:** @Boise\_Cascade

**Find them at Booth #: 6**

## **Brisco Manufacturing Ltd.**

*www.briscoman.com*

**About:** Brisco Manufacturing Ltd. (BML) is a privately held Canadian Company, located in the Columbia Valley in the East Kootenays. BML specializes in producing High-Quality Certified engineered beams from Laminated Veneer Lumber (LVL). The BML facility is capable of manufacturing a full range of laminated wood products.

**Find them at Booth #: 38**

## **Canadian Wood Council (CWC)**

*www.cwc.ca*

**About:** The Canadian Wood Council represents the Canadian wood products industry through a national federation of associations. The Mission of the Council is to expand market access and increase demand for Canadian wood products through its work in codes, standards, regulations and education. The Council produces technical information about wood products and communicates it to the building and academic communities to ensure knowledge is transferred and target audiences are educated about wood as a superior building product.

**Twitter:** @CdnWoodFacts

**Find them at Booth #: 1&2**

## **Cast Connex Corporation**

*www.castconnex.com*

**About:** The industry leading design center and supplier of cast steel structural components for use in the design and construction of building and bridge structures, CAST CONNEX's products include pre-engineered connectors for use in architecturally exposed structural steel and timber, and the company offers design-build services for custom cast steel nodes and components.

**Twitter:** @castconnex

**Find them at Booth #: 34**

## **CertainTeed Gypsum and Insulation**

*www.certainteed.com*

**About:** Through the responsible development of innovative and sustainable building products, CertainTeed has helped shape the building products industry for more than 110 years. Founded in 1904 as General Roofing Manufacturing Company, today, CertainTeed® is North America's leading brand of exterior and interior building products, including roofing, siding, fence, decking, railing, trim, insulation, gypsum and ceilings.

**Twitter:** @CertainTeed

**Find them at Booth #: 7**

## **Earthbound Corporation**

*www.holdown.com*

**About:** Earthbound Corporation designs and manufactures the Earthbound System and ChubbySmack Anchor Products. The Earthbound System is continuous tie rod system for multistory wood framed structures such as mixed use buildings, apartments, condominiums, hotels and assisted living structures. Earthbound also manufactures specialty fasteners for the construction industry.

**Find them at Booth #: 15**

## **European Timber Connectors**

*www.europeantimberconnectors.ca*

**About:** European Timber Connectors provides Canada's log and timber frame builders with Europe's best timber connectors and fasteners. Our team of master carpenters and engineers help you find the right connectors and screws for beautiful and lasting log and timber frame structures.

**Find them at Booth #: 11**

## **FraserWood Industries, Ltd.**

*www.fraserwoodindustries.com*

**About:** FraserWood is a pioneering, full-service provider of timber products and services. Since our founding in 1998, we've been committed to expanding the potential of solid-sawn, engineered and heavy timbers, and have successfully helped our clients reach new heights in the area of timber-related construction.

**Find them at Booth #: 39**

## Herrmann's Timber-Frame Homes

[www.herrmannframes.com](http://www.herrmannframes.com)

**About:** Herrmann's Timber-Frame Homes' main focus is on importing and distributing quality European building products for the high-end housing industry. They are proud to represent various manufacturing companies out of Austria, Germany and Switzerland with products ranging from wood fasteners and connectors, over windows and doors, to ecological insulation and building envelope enclosure systems.

**Find them at Booth #: 21**

## International Timberframes

[www.itimberf.com](http://www.itimberf.com)

**About:** International Timberframes custom design, manufacture and instal solid natural wood, both Timberframe and dowel laminated timber (DLT). The team believes in the enduring beauty of wood and in building simple and highly efficient homes to last a lifetime. They offer genuine wood expertise at design, pre-engineering and build stage. They are passionate about their partnerships with architects, engineers and building contractors who also believe in the benefits of solid natural wood as a building material.

**Find them at Booth #: 40**

## LP Building Products

[www.lpcorp.com](http://www.lpcorp.com)

**About:** LP has been delivering innovative building products for over 40 years. We continue to improve our current products while developing new ones with superior strength, durability and quality for advanced ways of building.

**Twitter:** @lpcorp

**Find them at Booth #: 10**

## MicroPro Sienna Treated Wood

[www.microprosienna.com](http://www.microprosienna.com)

**About:** MicroPro Sienna® wood products are treated with MicroPro® preservative technology, a revolutionary way to pressure treat wood for decks, fences, landscaping and general exterior construction uses. Certified low VOC, MicroPro Sienna has more environmental certifications than any pressure treated wood product on the market. MicroPro preservative technology meets Canadian Standards Association (CSA) standards as a wood preservative that has been formulated especially for Canadian species and use conditions. Wood treated with MicroPro can be used above ground, in ground contact and in fresh water.

**Twitter:** @MPSienna

**Find them at Booth #: 30**

## MiTek Canada Inc.

[www.mii.com](http://www.mii.com)

**About:** MiTek is a diversified global supplier of software, engineered products, services, and equipment to the residential, commercial, and industrial construction sectors. A Berkshire Hathaway company (NYSE: BRK-A, NYSE: BRK-B) since 2001, MiTek has operations in more than 40 countries on six continents.

**Find them at Booth #: 8&9**

## **MyTiCon Timber Connectors Inc.**

*www.my-ti-con.com*

**About:** MyTiCon Timber Connectors is a specialty supplier of connection systems for modern mass-timber and heavy-timber applications in commercial, industrial and residential projects. MyTiCon's team of product consultants and timber engineers work with the most innovative partners on cutting-edge projects across North America and are dedicated to providing the best customer service in the industry.

**Twitter:** @MyTiCon

**Find them at Booth #: 20**

## **naturally:wood® Resource Centre**

*www.naturallywood.com*

**About:** Developed by Forestry Innovation Investment, naturally:wood is a comprehensive information resource promoting British Columbia as a global supplier of quality, environmentally-responsible forest products from sustainably-managed forests.

**Find them at Booth #: 27&28**

## **Nordic Structures**

*www.nordic.ca*

**About:** Nordic Structures is a company dedicated to engineered wood products for the construction industry. Our solutions are tailor made for tomorrow's school, commercial, industrial, infrastructure, institutional, multiresidential, recreational, and residential projects.

**Twitter:** @NordicStructure

**Find them at Booth #: 17**

## **Passive House Canada**

*www.passivehousecanada.com*

**About:** Passive House Canada is a national non-profit professional association advocating for the Passive House high-performance building standard. Passive House is recognized internationally as the proven best way to build for comfort, affordability and energy efficiency of residential, institutional and commercial buildings, through all stages of design, construction, and livability.

**Twitter:** @PassiveHouseCan

**Find them at Booth #: 19**

## **Pinkwood Ltd.**

*www.pinkwood.ca*

**About:** PinkWood Ltd. manufactures premium wood I-joists for use in residential housing and in commercial buildings. At our modern, high-speed manufacturing facility in Calgary, we produce a complete array of Standard and Fire Rated joists in depths from 9.5" to 24". Our joists are manufactured to precise tolerances on high-speed equipment with integrated coating technology to yield the best possible physical properties and to maximize strength.

**Twitter:** @PinkWoodca

**Find them at Booth #: 23**

## **Rothoblaas Canada**

*www.rothoblaas.com*

**About:** Rotho Blaas Srl offers a complete and elaborated variety of cutting-edge woodworking products for professionals: Fastenings like structural screws, concealed joints, brackets and all other connectors for carpenters. Waterproofing and airtightness systems like tapes and specific accessories for sealing and ventilation. Soundproofing solutions that guarantee a higher living comfort by the reduction of noise transmission. Fall Protection Systems like lifelines, anchoring points and personal protection equipment.

**Twitter:** @RothoblaasCA

**Find them at Booth #: 13**

## **S-Frame Software**

*www.s-frame.com*

**About:** S-FRAME Software delivers customizable, innovative structural analysis and design engineering solutions. Our integrated products make it possible to analyze, design and detail structures regardless of geometric complexity, material type, loading conditions, nonlinear effects, or design code requirements.

**Twitter:** @sframesoftware

**Find them at Booth #: 29**

## **Simpson Strong-Tie Canada**

*www.strongtie.com*

**About:** For more than 55 years, Simpson Strong-Tie has focused on creating structural products that help people build safer and stronger homes and buildings. Considered a leader in structural systems research, testing and innovation, Simpson Strong-Tie works closely with industry professionals to provide code-listed, field-tested products and value-engineered solutions. Its structural products are recognized for helping structures resist high winds, hurricanes and seismic forces.

**Twitter:** @strongtie

**Find them at Booth #: 25**

## **Stich Consulting & Design Inc.**

*www.stichpassivedesign.com*

**About:** Stich Consulting & Design offers a variety of services all about Passive Houses including education, experience (yearly PH Tour in Europe), consulting & design (planning, PHPP calculation, PH certification, 3D modelling, etc. and material supply to Passive House standards (windows, CLT, woodfiberboard insulation).

**Find them at Booth #: 31**

## **StructureCraft Builders Inc.**

*www.structurecraft.com*

**About:** StructureCraft Builders is an engineer-led construction firm specializing in timber and hybrid-timber structures; we have been engineering and building efficient, signature structures for architects, owners, and general contractors of North America and Asia for 18 years. We accomplish this by bringing the old-world tradition of Master-Craftsman to bear upon the new-world of high tech construction. We are industry leaders in the “prefab revolution” – answering the pressing need for increased quality and construction efficiency, at the same time reducing site erection time and risk.

**Twitter:** @StructureCraft\_

**Find them at Booth #: 3**

## **Structurlam Mass Timber Corporation**

*www.structurlam.com*

**About:** Structurlam has built a reputation for quality and innovation that has set the bar for mass timber manufacturers across North America. What started as a family owned operation quickly evolved into the leader in mass timber structures.

**Twitter:** @Structurlam

**Find them at Booth #: 35**

## **Taiga Building Products Ltd.**

*www.taigabuilding.com*

**About:** Taiga is the leading independent wholesale distributor of building materials, and has 15 distribution centres in Canada and 2 distribution centres in Northern California, USA and 6 reload stations in Eastern USA — this ensures that a standing inventory (specific to each market) is always available. Taiga produces preserved lumber at three plants strategically located to service the Canadian market. As well, Taiga exports products into markets in Asia, Central and South America, and the Middle East.

**Find them at Booth #: 12**

## **University of Northern BC - MEng, Integrated Wood Design**

*www.unbc.ca*

**About:** The Master of Engineering, Integrated Wood Design is a world class program designed to enhance students' understand of wood as a versatile and sustainable construction material. Students learn about modern wood construction, building science and sustainability. Located in northern BC, UNBC provides outstanding undergraduate and graduate learning opportunities that explore cultures, health, economies, and the environment.

**Twitter:** @UNBC and @UNBC\_MENG

**Find them at Booth #: 16**

## **Western Archrib**

*www.westernarchrib.com*

**About:** Western Archrib is a leader in the design, manufacture, and custom fabrication of glued-laminated structural wood systems. Our product line includes our signature brands of: Westlam and IJC Westlam; as well as Spruce Pine and Douglas Fir glulam. We are certified to manufacture in accordance with the national standards of Canada, the US, and Japan.

**Twitter:** @WesternArchrib

**Find them at Booth #: 4**

## **Wesure**

*www.wesure.com*

**About:** Established in 1975, Wesure started out as a custom fabrication shop producing a unique, patented sulphur remelter and has grown and diversified its activities ever since. We have worked with companies worldwide to become the go-to company for Calgary steel fabrication. Today, our patented pre-engineered steel support columns are industry leaders in Western Canada. Our custom steel fabrication services now encompass projects for industries as diverse as the oil and gas sector, environmental services, recreation & leisure and the construction industries among others.

**Twitter:** @WesureWeld

**Find them at Booth #: 22**

## **Weyerhaeuser**

*www.woodbywy.com*

**About:** Weyerhaeuser has been developing new building products and solutions for more than 100 years. We are your source for value-added solutions that improve performance, safety and profitability.

**Twitter:** @Weyerhaeuser

**Find them at Booth #: 24**

## **Wood Preservation Canada**

*www.woodpreservation.ca*

**About:** Wood Preservation Canada (WPC) is the industry association that represents the treated wood industry in Canada. WPC operates under Federal Charter and serves as a forum for those concerned with all phases of the pressure treated wood industry, including research, production, handling and use and the environment. WPC members are committed to producing safe, quality products in an environmentally sound and progressive manner.

**Find them at Booth #: 18**
