

**North Peace Airport Terminal | Peace River Regional District | Area “C” Fort St. John**

**Stantec Architecture Ltd. | District of Taylor**

The project was designed to be reflective of the northern landscape of which the forest and forest industry are an integral part. To recognize this, the massive wooden beams and earthy colour schemes were chosen as “the main design features” for the project.

The project involved constructing a 2,800 sqm (\$5.2M) airport terminal.

**Project team:**

**Architect:**

Stantec Architecture Ltd.  
Suite 1100 - 111 Dunsmuir Street
