A NOTE ABOUT PROFESSIONAL CONTINUING EDUCATION CERTIFICATES: Wood Solutions Conference Presentations meet the Continuing Professional Development requirements of the Canadian Institute of Quantity Surveyors (CIQS), Structured Learning requirements of the Ontario Association of Architects (OAA), Continuing Education Unit requirements of the Engineering Institute of Canada (EIC), and offer technical knowledge that members of the Professional Engineers of Ontario (PEO) may consider for their continuing professional development (CPD) needs (at their discretion). Courses may also qualify for other professional development credits; please contact your professional association regarding course eligibility. Personalized electronic participation certificates will be sent to the email address associated with your registration within 2 weeks of the conference.
